

RECOVERY PLAN FOR LEARNING LOSS DUE TO COVID 19 PANDEMIC

(Hundred Days Schedule for English
Language)

Grade 8

Department of English
National Institute of Education

Introduction

As a preparation to reopen schools after Covid -19 pandemic, the necessity of a recovery plan to address the learning loss that exists due to Covid -19 school closure has been highlighted. The Department of English of the National Institute of Education was given the responsibility to prepare a recovery plan for 100 days. The total time loss due to school closure in year 2020 and 2021 has been calculated and it has come to 40% in year 2020 and 60% in year 2021. Based on this calculations, the recovery plan for each grade has been designed considering the most essential competency levels from previous grade to cover 40 days and the most essential competency levels from the present grade to cover 60 days which makes the total of 100 days. For an example, the recovery plan developed for grade 8 consists 40% of the most essential competency levels taken from grade 7 and the remaining 60% is taken from grade 8. When deciding the most essential competency levels that should be included in the recovery plan, minimum learning levels that have been identified for each grade have been taken into consideration, and a weekly plan was prepared to cover those identified minimum learning levels. In addition, when implementing this recovery plan in classrooms, teachers are expected to study the content provided for each competency level in the Teacher's Guide in order to make this recovery plan more meaningful and effective.
